Re: MB Docket No. 10-56

Dear Chairman Genachowski:

As a seven-term councilman and former mayor of Clarksburg, West Virginia, who has also served as president of the National League of Cities, I have encountered Comcast at home and throughout the country. In my experience, Comcast is a leading corporate citizen committed to giving back to the communities it serves. Therefore, I am writing to ask that you approve the venture proposed by Comcast and NBC Universal.

In Clarksburg and across America, community leaders turn to Comcast for financial and in-kind assistance. Comcast supports charitable causes like the United Way, City Year, Boys & Girls Clubs, and Big Brothers Big Sisters. Its partnerships with these organizations are national, but are truly felt on the local and chapter levels. Libraries, municipalities and schools also receive free video and high-speed Internet services from Comcast, and the company has demonstrated its ongoing commitment to provide locally-focused news and public affairs programming all across the country.

Comcast is a national company with a local presence and local concern for those in need. I encourage you to endorse the proposal before you.

Sincerely,

James C. Hunt  
Councilman  
Clarksburg, West Virginia
